

PayPal Integration

1. Login

Einloggen auf <https://developer.paypal.com/>
(Wenn Sie noch kein PayPal Konto haben, bitte ein neues Konto eröffnen.)

2. My Apps öffnen

Anschließend folgende Url öffnen: <https://developer.paypal.com/developer/applications>

The screenshot shows the PayPal Developer dashboard. On the left is a navigation menu with categories: DASHBOARD, My Apps & Credentials, My Account, SANDBOX, and MOCK. The main content area is titled 'My Apps & Credentials' and features a mode selector with 'Sandbox' and 'Live' buttons. The 'Live' button is circled in red. Below the selector are sections for 'REST API apps' and 'NVP/SOAP API apps'. A 'Create App' button is also visible under the REST API section.

Als erstes den Modus auf „Live“ stellen und dann auf „Create App“ klicken:

This screenshot is identical to the previous one, but the 'Create App' button under the 'REST API apps' section is circled in red. The 'Live' mode is selected in the mode selector.

3. Create new App

Create New App

Before you create your new app, let us know what kind of solution you're looking for.

Application Details

App Name

As a reminder, all apps created under your account should be related to your business and the type of business it conducts.

By clicking the button below, you agree to [PayPal Developer Agreement](#) (US accounts only).

Create App

Auf der sich öffnenden Seite bitte bei App Name „Zahlart-Schnittstelle“ eintragen und mit Create App bestätigen:
